

Arts Carleton Place

Empowering artists and area residents through the arts

Framing and Hanging Hardware Standard

1. Hanging hardware used must be D-Rings with coated, stranded wire. Non-coated wire must have ends wrapped with tape. If work is framed, D-Rings should be attached to the frame.
2. D-rings are ideally mounted down 1/3 of the way from the top of the finished artwork. For large pieces, 1/4 of the way. When the artwork is hanging, the hook should not be visible.
3. No centre-mounted hanging device is permitted.
4. Gallery wrapped (1.5" depth) canvas or panel does not require framing but edges must be painted. Regular depth canvas or panel (3/4") must be framed.
5. Frames must be clean and unchipped. If art is under glass, it should be clean inside and out.
